GROSSMONT-CUYAMACA
COMMUNITY COLLEGE DISTRICT

Grossmont-Cuyamaca Community College District
Bond Measure G
Information Fact Sheet

On July 27, 2026, the Governing Board approved placing a bond measure on the November 3, 2026 ballot. The main focus of the bond funds will be on life, safety, and infrastructure needs. Current funding from the state only covers operational needs, which does not include any safety or major infrastructure upgrades.

Our Facilities Bond Extension Plan

- No new taxes
- No increase to current tax rate *
- Approx. amount would be $624M

** With projected annual tax revenues of approximately $25 per $100,000 of assessed value, this measure is designed to modernize our campuses without increasing current tax rates. Our financial projections indicate that taxpayers will see no increase over what they are already paying if this measure is approved.*

Why We Need a Bond

Our current bonds have greatly benefited our colleges. However, with the continued aging of our infrastructure, more is still needed. Our infrastructure has reached end-of-life and needs to be replaced, repaired, or upgraded:

- Wildfire safety/mitigation and water supply
- Storm drain and flooding mitigation issues
- Infrastructure and building upgrades
- Safety needs, including ADA compliance
- Electrical upgrades
- Roof maintenance and repairs

The new bond will have a workforce training focus, and support our current and future planning:

- Modernizing training facilities
- Expanding workforce training programs
- Offering bachelor's degrees
- Addressing infrastructure and safety needs

Campus projects include:

Grossmont College

- Advanced Trades and Technology Center *(new)*
- Instructional Complex *(replacement)*
- Child Development Center *(replacement)*

Cuyamaca College

- Instructional Building Complex *(replacement)*
- Learning Resource Center *(upgrade)*
- Child Development Center *(upgrade)*
